PROFESSIONAL SUMMARY

Full Stack Software Engineer with expertise in building scalable web applications using Next.js, React.js, Node.js, Express.js, MongoDB, and TypeScript. Proficient in designing authentication systems, REST APIs, and AI-powered workflows. Experienced in developing enterprise applications like AI recruitment platforms and SaaS products. Passionate about creating maintainable, high-performance solutions that address real-world business challenges.

EXPERIENCE

DeveloperTag

Feb 2025 – Sep 2025

Associate Software Engineer

Lahore, Pakistan

- Develop and maintain full-stack web applications using Next.js, React.js, Node.js, Express.js, TypeScript, and MongoDB, focusing on scalability, maintainability, and reusable architecture.
- Build REST APIs, implement authentication and authorization workflows, and integrate third-party services including AI platforms and external business systems.
- Collaborate with cross-functional teams in Agile environments, participate in code reviews, troubleshoot production issues, and contribute to deployment and release processes.

Amoxt Solution Inc.

Oct 2024 – Mar 2025

Intern Software Engineer

Lahore, Pakistan

- Developed responsive web applications using React.js, Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB while following modern development practices.
- Implemented authentication and authorization using JWT and OAuth, and worked with GraphQL APIs, Socket.IO, and Redis to support application functionality.
- Contributed to database design, debugging, testing, deployment activities, and application performance improvements through efficient query optimization and code maintenance.

Freelance Software Engineer

2023 – Present

Upwork & Independent Projects

Remote

- Delivered custom full-stack web applications for international clients using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Worked directly with clients to gather requirements, define project scope, and implement business-focused software solutions.
- Managed project delivery from development to deployment while providing ongoing support, maintenance, and feature enhancements.

PROJECTS

AI-Powered Recruitment Platform | *Next.js, TypeScript, Node.js, MongoDB, OpenAI API*

- Developed a full-stack recruitment platform using Next.js, Node.js, MongoDB, and TypeScript with separate workflows for employers, recruiters, and candidates.
- Implemented authentication, authorization, job management, candidate applications, and recruitment workflow features.
- Integrated OpenAI APIs for resume analysis, candidate evaluation, and AI-assisted content generation.

Learning Management System (LMS) | *Next.js, Redux Toolkit, MongoDB*

- Built a Learning Management System supporting Super Admin, Admin, Teacher, and Student roles using Next.js and Redux Toolkit.
- Implemented role-based access control (RBAC), permission management, and dashboard workflows for different user types.
- Developed responsive user interfaces from Figma designs and ensured compatibility across desktop and mobile devices.

Canva Integration Platform | *Next.js, React.js, Canva API*

- Integrated Canva APIs to enable template management, editing, and publishing directly within the application.
- Developed a custom workflow allowing users to personalize and customize templates without leaving the platform.
- Built reusable components and optimized frontend state management for a consistent user experience.

EDUCATION

Bachelor of Science in Computer Science (BSCS)
COMSATS University Islamabad

2021 – 2025

- Relevant Areas: Software Engineering, Data Structures & Algorithms, Database Systems, Web Development, Operating Systems, and Computer Networks.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, ShadCN UI, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, Authentication, Authorization, API Validation, Error Handling
Databases: MongoDB, PostgreSQL, Database Design, Aggregation Pipelines, Query Optimization
Security: JWT Authentication, OAuth, Role-Based Access Control (RBAC)
Deployment & DevOps: Git, GitHub, Docker, Nginx, PM2, VPS Deployment, CI/CD
AI Integrations: OpenAI API, AI Chatbots, LLM Integrations

CERTIFICATIONS

Certified MERN Stack Guide
Instructor: Maximilian Schwarzmüller

Udemy

Node.js – The Complete Guide
Instructor: Maximilian Schwarzmüller

Udemy

AWARDS & ACTIVITIES

VISIO SPARK 2024
Certificate of Participation for active involvement and contribution.
